PROFILE

I'm a 16-year-old front-end web developer with a strong passion for coding and design. I specialize in creating responsive, user-friendly websites using HTML, CSS, and JavaScript, and I'm continuously expanding my skills with modern tools like React, Tailwind CSS, and Git. I enjoy turning ideas into clean, functional interfaces and love learning new technologies to improve my work. Whether it's building personal projects or collaborating with others, I'm always looking for opportunities to grow and create meaningful digital experiences.

WORK EXPERIENCE

Freelance Front-End Developer
REMOTE — 2023 – PRESENTT

- Designed and developed responsive websites for small local businesses using HTML, CSS, JavaScript, and Tailwind CSS.
- Created modern user interfaces with React, focusing on performance and mobile compatibility.
- Collaborated with clients to gather requirements, present mockups, and deliver functional final products.
- Hosted and maintained sites on platforms like GitHub Pages and Netlify.

Personal Projects
Remote — 2022 – Present

- Built multiple web apps and websites including a to-do list app, portfolio website, and blog platform.
- Implemented animations, dark/light themes, and API integrations using JavaScript and React.
- Shared work on GitHub, continuously improving through feedback and code reviews from online communities.

Volunteer Web Developer
Local Community Center — Summer 2

- Helped update and redesign the center's official website to improve accessibility and user experience.
- Used modern web practices and ensured the site was mobile-responsive.
-
